

SAVE THE DATE: ROTARY INSTITUTE BASEL 22

Dear all,

From **November 4 – 6 2022**, the Rotary world will gather in the heart of Europe - and let us tell you; it's worth the trip. Located in the middle of the border triangle, Basel seems to be predestined for cultural exchange, fascinates with historical tradition and grew in recent years to one of the most important business locations in Switzerland. In this inspiring environment, we want to dedicate ourselves to our future and discuss together our commitment to the most important topics that are currently moving the world. The focus for Rotaract will be:

The Future of Rotaract

Come visit us, be part of this extraordinary event and help to change the future. Because: our future is now – that's why we act now.

INSTITUTE BASEL

All Rotarians and their partners are welcome to participate in the Basel Institute. We will focus on four major topics – they are discussed in four breakout sessions, conclusions being presented in a global session: Environment, Peace, Mother & Child Health and the Future of Rotary. The Institute will be opened with a flag ceremony and the Rotary Hymn.

Presenters and Speakers:

- Jennifer Jones, RIP
- Urs Klemm, RID and Convener
- Alberto Cecchini, Co-Convener
- Mark Maloney, PRIP and Trustee
- Holger Knaack, PRIP and Trustee
- Nicky Scott, RID & Vice President
- Lukas Engelberger, Government Council Basel-City and Rot.
- Ursula Schoepfer, President Board of Governors CH/FL

ROTARY INSTITUTE SATELLITE WORKSHOPS

Rotaract Event Part with Jennifer Jones, Holger Knaack and external Speaker

Next to the possibility to be there in person, we want everyone around Europe to join us. Therefore, the Saturday institute day will be hybrid. This means that districts, regions, or clubs could host their own event and are connected to the main event. These regional events will be satellites to the main event. The whole event will be streamed via MS Teams. The satellites could also be doing it online.

There will be in total four workshop blocks. The first three have a specific topic and will have a key speaker in Basel. They will talk and provide everyone with questions that each group or satellite should find answers to. In the last session we want to have an open panel in which all satellites and groups to present their ideas and conclusions of the three previous sessions.

What do you need to host a satellite event?

- Motivated people
- A room big enough to host everyone.
- Depending on the amount of people: beamer or TV
- A computer that is connected to the internet
- A webcam to show your room
- A microphone / headset to talk to the rest online
- Microsoft Teams to communicate with Basel and your team

Please note that the Rotary Institute in Basel cannot provide financial support to the satellite events. Every event must run on its own feet.

If you want to host a satellite event, please let us know via e-mail so we can provide you with the need information to connect with us. Please also let us know how big your event will be. satellite.rotaract@rotary-institute-basel.com
